Abstract—Write your abstract here.
Index Terms—keyword one, keyword two, keyword three

I. INTRODUCTION

Write your introduction here. Cite a reference like this [1].

II. EQUATIONS AND ARRAYS

A numbered equation:

$$E = mc^2 \tag{1}$$

A system of equations:

$$x + y = 1, \tag{2}$$

$$2x - y = 0. \tag{3}$$

A matrix (array):

$$A = \begin{bmatrix} 1 & 2 \\ 3 & 4 \end{bmatrix} \tag{4}$$

III. TABLE

TABLE I
EXAMPLE RESULTS

Method	Accuracy (%)	Time (s)
Method A	92.4	1.8
Method B	95.1	2.3

IV. IMAGES AND FLOWCHARTS

Add an image file named `figure.png` in the same folder as this source file.

A flowchart drawn with TikZ:

V. CONCLUSION

Summarize your work here.
